Letters become property of *UniForum's IT Solutions*
and are assumed to be for publication.

UniForum is a vendor-independent, not-for-profit professional association that helps individuals and their organizations increase their information system's effectiveness through the use of open systems, based on shared industry standards. Central to UniForum's mission is the delivery of high-quality educational programs, trade shows and conferences, publications, online services and peer group interactions.

Membership in UniForum is open to individuals only. General members pay \$125. Overseas shipping is extra.

UniForum's IT Solutions (ISSN# 1086-217X) is published monthly for \$24 per year (membership dues) by UniForum, 2901 Tasman Dr., Suite 205, Santa Clara, CA 95054. Application to mail at second-class postage rates is pending at Santa Clara, CA, and additional mailing offices. POSTMASTER: Send address changes to 2901 Tasman Dr., Suite 205, Santa Clara, CA 95054-1138.

Membership dues and other contributions to the UniForum Association are not tax-deductible as charitable contributions. However, they may be tax-deductible as ordinary and necessary business expenses.

UniForum's IT Solutions is an official publication of UniForum, The International Association of Open Systems Professionals. Statements of fact and opinion are made on the responsibility of the authors alone and do not imply endorsement of products noted or an opinion on the part of the UniForum officers.

FEATURES

25 The Idea of Openness at Work

The concept of openness has spurred significant changes in computing. Three in-depth articles address this driving force at all levels of the enterprise.

26 More Than Money Can Buy

Going from mainframes to Unix servers has brought increased functionality, as several case studies show.

by Philip J. Gill

32 The Changing Face of Midrange Platforms

As the terms *open* and *proprietary* evolve, there is greater overlap—and more confusion—than ever before.

by Richard Cole

38 CDE Finds a Comfortable Niche

The Common Desktop Environment has arrived, but expectations for its impact have changed.

by Larry Stevens

42 Teamwork Behind the Scenes

Establishing a truly valuable presence on the World Wide Web requires taking the human factor into consideration.

by Sally Atkins and Peggy King

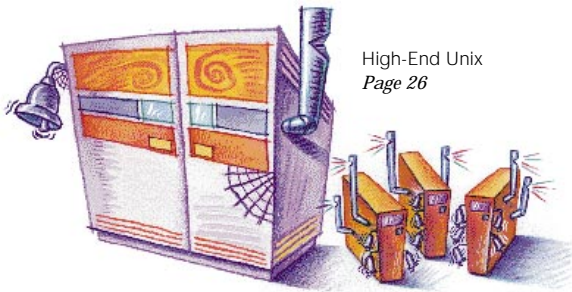

ON THE COVER

Openness is having a strong effect on all levels of computing—the desktop, the midrange and the data center.
