SOFTWARE

Object Request Broker

PostModern Computing has announced Black Widow, an object request broker (ORB) that connects CORBA-compliant objects with the World Wide Web. With the product, small applications can be used from Web browsers to communicate with CORBA server objects implemented in Java or C++. Companies can bypass the HyperText Transfer Protocol and the Common Gateway Interface in favor of the CORBA Internet Inter-ORB Protocol.

Black Window supports SunOS, Sun Solaris, HP-UX, Digital Unix and SCO Open Server, as well as Windows 95 and Windows NT. Prices start at \$995.

PostModern Computing, 1885 Landings Dr., Mountain View, CA 94043, (415) 967-6169.

Data Migration

Evolutionary Technologies International has introduced Extract 3.0, a tool designed for the retrieval, transformation and migration of data across heterogeneous databases and systems. This release includes a graphical user interface and other features such as versioning and access to data about the database.

Extract supports Sun Solaris, HP-UX and IBM AIX/6000. Prices start at \$250,000.

Evolutionary Technologies International, 4301 Westbank Dr., Bldg. 3,

#100, Austin, TX 78746; (512) 327-6994.

Manufacturing Execution System

Hilco Technologies has announced the rtPM (realtime production management) system, a manufacturing execution system that supports batch and continuous process manufacturing environments at the plant-floor level.

The rtPM system supports HP-UX, IBM AIX and DEC Ultrix, as well as Windows NT. The system currently includes seven modules with prices ranging from \$3,000 to \$10,000 per module.

Hilco Technologies, Inc., 3300 Rider Trail So., #300, Earth City, MO 63045; (314) 298-9100.

Graphical User Interface Builder

Imperial Software Technology has introduced X-Designer, a cross-platform graphical user interface builder. X-Designer enables users to create interfaces for both Unix and Windows applications from a single design.

X-Designer supports Sun Solaris, SunOS, HP-UX, IBM AIX, AT&T GIS, SGI IRIX, SCO Open Server, Digital Unix and Ultrix, and OpenVMS. Prices start at \$3,500 for the first license.

Imperial Software Technology Ltd., 120 Hawthorne Ave., #101, Palo Alto, CA 94301; (415) 688-0200.

Interface Components

Integrated Computer Solutions has introduced EnhancementPak 2.5 for OSF/Motif. The product provides a library of reusable graphical user interface components or "widgets" that can be used on Motif interfaces.

EnhancementPak 2.5 supports SunOS, Sun Solaris, SGI IRIX, IBM AIX, Digital Unix and SCO Open Server. It is priced at \$2,495 for a single license.

Integrated Computer Solutions,

Inc., 201 Broadway, Cambridge, MA 02139; (617) 621-0060.

Sort/Merge/Report Application

Innovative Routines International has introduced release 4.5 of Consort, an application package for sort, merge, report and data type conversions from mainframe to Unix environments.

Consort supports HP-UX, Digital Unix and Ultrix, IBM AIX, SCO Open Server, SGI IRIX, AT&T GIS, SunOS, Sun Solaris and Pyramid Unix. Prices start at \$2,490.

Innovative Routines International, Inc., 1775 W. Hibiscus Blvd., #303, Melbourne, FL 32901; (800) 333-7678, (407) 952-9400.

Storage Management

McAfee has introduced ServerStor 2.0, a network storage management solution for NetWare servers. The product provides server backup and hierarchical storage management to protect the integrity and availability of network data.

ServerStor 2.0 has a two-year fee pricing of \$7.50 per node for 1,000 nodes.

McAfee, 2710 Walsh Ave., Santa Clara, CA 95051; (408) 988-3832.

Object-Oriented Components

Interactive Software Engineering has announced EiffelMath, a library of reusable, object-oriented components for numerical computation in financial, banking and scientific applications. EiffelMath facilitates programming of computations for areas such as probability, statistics, numerical integration and time series analysis.

EiffelMath supports SunOS, Sun Solaris, HP-UX, IBM AIX/6000, Digital Unix, DG-UX, SGI IRIX and SCO Open Server. Prices start at \$995.

Interactive Software Engineering, 270 Storke Rd., #7, Santa Barbara, CA 93117; (805) 685-1006.

Calendaring/Scheduling

Enterprise Solutions Limited has introduced EXM/Time, an e-mail-enabled calendar solution for use with EXM Mail by Corporate Software & Technologies International. EXM/Time provides scheduling with time zone adjustment. It also provides resource management, personal calendar and information management and task management.

EXM/Time supports SunOS, HP-UX, SCO Open Server and IBM AIX. Prices vary from \$120 to \$40 per use.

Enterprise Solutions Limited, 2900 Townsgate Rd., #210, Westlake Village, CA 91361; (805) 449-4181.

HARDWARE

Notebook Computer

Tadpole Technology has introduced the Alphabook 1, a notebook computer based on a Digital Alpha 21066 microprocessor with a variable speed of up to 233MHz. Removable SCSI-2 hard disk drives are available with up to 1.2GB capacities. Two PCMCIA slots are also included.

The computer supports OpenVMS. Prices start at \$13,950.

Tadpole Technology, 12012 Technology Blvd., Austin, TX 78727, (512) 219-2200.
